Officer Reports:

Executive Committee Meetings:

- 1) **Meeting 1: Programming Changes** – Discussions were held on current programming changes and how to work out the broadcasting mechanics, budget issues and personnel issues. Movement was towards a consensus on laying the groundwork to finalize decisions and enact change. Some problems still remain in getting Deutsche Welle to air without dead space. Further programmer training and familiarity with the replacement programs will correct this, as well as improved technical support.

Staff Reports

GM:

FY2009 Budget: John says audit is expected to have their final report to us by Friday the 24th. The CPB annual financial report then should be able to be sent by next week. The latest we would file is May 8th.

Resource Development: The Spring Drive is coming up with a goal of \$50,000. An effort is being made to have all materials translated into Spanish for Sat. morning programs during the pledge drive. Persons with bilingual skills, such as Frank Shulse, are being sought to help out with this. Scripts, solicitations, and forms will all be translated, and spanish speakers are being sought to work the phones during that time. Kyle Cook suggested adding Tony Layson to the list of potential translators.

Programming Change Progress: David reported that there had been some emails and calls to the station regarding opinion on the replacement programs for BBC News. At the moment feedback is mostly negative but there have also been some positive reactions. Other programming options and a decision regarding the fate of the noon airing of Democracy Now will be further considered after the May Drive. David also announced that Frank Shulse had given up his Friday 5-6pm news slot. Alternative radio is being aired on Fridays from 3-4, followed by Nina Wilson's program from 4-6pm, leading into Pat's Power Pop Hours at 6pm.

Going forward, David will seek technical help from Mike McGowan, Rich Winkel and Sam Griffin to re-arrange computer feeds and make way for internet band width for more than one internet stream. David is also seeking to work a better deal with more band width from Socket.

Programming Committee Agenda Item: It was suggested that the Programming Committee do some theorizing to come up with ideas for possible line-up replacements for DN at noon.
